Subject* Road modification Suggestion

Questions/Comments* Please add a North turn lane
for the westbound lanes to be able to
turn onto I 59 access Road, that tends
to back up when a vehicle needs to go straight

Houston, TX 77027

Questions / Comments*

by young architect's engineers
without the tools they need to
truly address the issues that
have been arising over the last
few years the potential for more
huges bearing flood will result
from this project. Kingwood is
at risk from the current conditions
of Lake Houston, Kingwood homes
~~off~~ EAST MONTY PARK are down
streams to the developments
north of west, what is the scope
of the Flood Prevention surveys
and projected Rene dgs??

Houston, TX 77027

Questions / Comments*

- 1) For exiting the Kings Mill neighborhood onto Northpark Drive, please consider a safe way to turn left onto Northpark
- 2) drainage. not only is it beneficial to bring Northpark Drive out of the floodplain, but this project should be mindful of the impact to surrounding homes and businesses. If drainage is not accounted for, homes in Kings Mill neighborhood will be directly affected by flooding. Kingwood is extremely susceptible to flooding and drainage should be overly accounted for.
- 3) this is beneficial to get over the railroad track, but concerning that all the traffic will then be stopped at red lights at the intersection of 609 before getting onto the highway.
