Subject\* DRAINAGE

Questions / Comments\* Bens Branch where it crosses North Park Dr

jumped its banks during Imelda last year. Street sewer system  
throughout Woodland Hills is 'Bens Branch' floods, in turn flooding  
many homes. Will North Park project work to correct Bens Branch to  
divert some water to the Kingwood District Canal?

Questions / Comments\*

We have heard on Russell Palmer  
for 44 years I until a couple of  
years ago - N Park in Russell Palmer  
never flooded with all of the construction  
the roads around water when a heavy  
rain comes. Worried about homes  
standing when N Park goes under  
construction.  
What will prevent flooding?

Questions / Comments\*

My house has never flooded in the 40 years since built, but it keeps getting closer over the last 2 years.

I want to see the elevation map of Northpark along with the proposed drainage solution in relation to where I live. With that info, I can make mitigation decisions at my home.

I need to have an idea if we were to get another Imelda like we did last summer or where the water would go.

If you can send me a map of elevation at drainage, I would be appreciative.

You can also call me anytime at 281-935-2161 to discuss.

Thank you,

Miguel Robinson
